Oliver Randolph Parry, architect, 1723 Chestnut street, has been commissioned as the architect and has completed plans and specifications for twelve different style reinforced concrete houses to be erected for Worrell and Wilkinson at Kennett Square, and which will be the first of the extensive improvements planned for this tract; made necessary by the scarcity of houses at this point. The work no doubt will attract considerable attention on account of the number of this type of construction and design of the various houses. Those invited to estimate on the work are A. H. Beebe, Kennett Square, Thomas F. Grady, Kennett Square, Henry C. White, Kennett Square, Concord Construction Co., West Chester, William Jones, West Chester, Mr. Wilkinson (Rayne & Co.), George L. Tipping, Philadelphia, James E. Hazzard, Southampton, Pa., A. T. Powell, Wilmington, Del., M. P. Murphy, Philadelphia, Pa., Pomeroy Construction Co., Philadelphia, Pa., and Donovan & Company, Philadelphia, Pa.

A. Paul De Sanno, trustee for the Oak Lane Baptist Church, has taken title to the site at the southeast corner of Twelfth street and Oak Lane, for its proposed new edifice.

Baker & Dallett, architects, 1629 Chestnut street, have plans on boards for a two-story reinforced concrete storage house, to be built in Norristown, Pa., for the State Hospital for the Insane.

Watson & Huckel, architects, 1211 Walnut street, are completing plans for alterations and improvements to the Hancock property, in Merion, Pa., for Mrs. Alice N. Burke, who has purchased the same.

Heacock & Hokanson, architects, Bailey Building, have been chosen in competition as the architects for the two-story and basement brick and stone high school building, to be built in Riverton, N. J.

At the League day celebration held in Association Hall, Wissahickon, by members of the Wissahickon Methodist Church, of which Rev. C. P. Fitcher is the pastor, it was decided by the congregation to build a new edifice.

Hewitt & Paist, architects Bullitt Building, have completed plans for the proposed new four-story brick and stone dormitory, measuring 200 x 50 feet, to be built in Pottstown, Pa., for the Pottstown High school, to cost about \$700,000.

F. Russell Stuckert, architect, 1420 Chestnut street has invited estimates on alterations and additions to the building at Fifteenth and Moravian streets. Frank T. Maguire, Harry Gill, Jr., Doak & Co., and Charles W. Denny, builders are estimating.

George Nattress & Son, architects, northeast corner of Twelfth and Walnut streets, have completed plans for improving the exterior of the Protestant Episcopal Church of the Nativity, to cost about \$15,000. Bids will shortly be invited.

Wilson, Harris & Richards, architects, Drexel Building, have had their plans chosen in competition for the new library and gymnasium to be built in Overbrook, Pa., by St. Charles's Borromeo's Roman Catholic Theological Seminary.

De Armont & Ashmead, architects, 618 Chestnut street, have completed plans for nine dwellings, to be erected in Wayne, Pa. for H. A. Treat. They will be built of stone

Sauer & Hahn, architects, 1112 Chestnut street, have distributed plans for estimates on the new building, to be built at 917 to 935 North Ninth street, for the Keystone Supply Co. E. E. Hollenbach, Lynch Bros., the H. B. Deal Company, the William Steele & Sons Co., Charles W. Denny, Thomas Little & Son, A. Raymond Raff, J. G. Doak & Co., the H. E. Grau Co., the Smith-Hardican Co., Irwin & Leighton and the Charles McCaul Co., builders, are estimating.

The celebrated farms of the Colonel James Young Estate, situated on the Susquehanna River, between Highspire and Middletown, Pennsylvania, have been bought by the Committee of the First Catholic Slovak Union, as a site for a proposed orphanage and school for the children of deceased members of the organization. This union is a fraternal organization of Catholics of Slav extraction, and at a meeting, held at Youngstown, Ohio, in May of this year, it was decided to establish such a home, and a committee was appointed to select a suitable site. Bishop Shanahan, of Harrisburg, is interested in the work. The site includes three farms, of which two were owned by Mr. Cameron Young, and the other by Mrs. Katherine S. Dunbar, 218 North Second street, Harrisburg, whose agent in the transaction was Mr. Mercer Tate, also of Harrisburg. During the Spanish-American War the Young farms became the site of Camp Meade. The proposed orphanage will be under the care of the Slovak Sisters, for whom a home will also be erected. There are a number of buildings on the site, of which all will be used, but in addition a large building for the orphanage will be erected at a cost of \$200,000. It will be of brick, with stone trimmings, fine interior finish, sanitary plumbing, tile work and all modern conveniences. Other buildings will follow as required, the plan being to have, in time, one of the largest institutions of the kind in the country.

When it is understood that the Land Title Company, at the southwest corner of Broad and Chestnut streets, is still in its infancy as to its years of existence when compared with the old trust companies of this city, its growth in its business as well as in its financial strength is simply phenomenal. With a capital of two millions and a surplus which with undivided profits of over three millions, its prominence in the world of finance is established beyond controversy. While it may be justly stated that there are trust companies with both larger capital and surplus at present, it is doubtful if in the first few years of their organization they succeeded in reaching a financial standing equal to the Land Title. The position of the company at present, of course, is due to the rigid business principles administered by an intelligent and experienced official management. The Land Title is the only trust company in this city which clears through the national bank clearing house and which is consequently governed by the same rigid rules as controls the national banks of the entire country. Besides which, it is also periodically subjected to official state as well as private examinations. This in itself is sufficient assurance to depositors that their interests in every direction are safely guarded. The company has a well-lighted and conveniently arranged safe deposit department which affords those holding boxes every possible convenience. Its real estate department embraces in its records every piece of ground transferred in this city since 1682, hence its searches in the use of its own records are certainly more expeditious than if the company were dependent upon the city records to perfect a search desired. The business of the company embraces every element of necessity suggested by the real estate, financial and title insurance business.

A-C-H-I-E-V-E-M-E-N-T SPELLS SUCCESS

With more than 12,000 square feet of our patent stamped sheet steel hot air radiators successfully installed and in actual use in the many differently constructed dwellings and under the varying climatic conditions of Canada, Pennsylvania, New Jersey and Maryland where we have made installations to the entire satisfaction of the owners of the properties, as our numerous testimonials from them prove, we have clearly and fully demonstrated that our

INTERNATIONAL HOT AIR RADIATOR SYSTEM OF HEATING

is the most perfect home heating system now before the public.

Ask Mr. M. F. McCauley, Cheltenham avenue and Reach street, Crescentville, Philadelphia, Pa., what he thinks of our heating system installed in his home four years ago and learn from him what uniform heating comfort he is getting from burning but six tons of coal in a winter to heat, remember not warm, his nine room frame dwelling, exposed on all four sides and ask him what his maintenance cost has been during those four years.

Examine the recording thermometer records taken at 1309 Arch street, Philadelphia, Pa., a fourteen room office building, where eight tons of coal was burned last winter, showing a temperature of 74° day and night, with a variation of less than 1° in twenty four hours, week in and week out, and with absolutely no maintenance cost for five successive winters.

Let Mr. Ross E. Williams, 1 North Forty-first street, Philadelphia, Pa., a practical hot air heating expert tell you how his shop, with front and rear exposures, was heated last winter with practically but a few shovels full of coal.

Call on us and read the original testimonials we have on file from other pleased users of our

INTERNATIONAL HOT AIR RADIATOR SYSTEM OF HEATING

and then judge for yourself whether we can heat *your* home perfectly and economically as to coal consumption with practically no maintenance cost.

With uniform heat distributed throughout your home day and night, with no especial care required to keep the fire going, with no intricate or delicate parts or valves to keep in order, don't you think you would be better satisfied with our heating system, than with the more crude methods? Add to these advantages, practically no maintenance cost, a decided saving in fuel, the doing away entirely with the danger of explosions and water leaks as well as not being annoyed with dust from ashes, coal gases and other foul odors getting into your rooms, with a low installation cost, and won't you not only have an entirely safe and cleanly heating plant, but an efficient and reliable one as well.

The many successful installations we have made and the many satisfied users of our heating system, do the most eloquent talking for us. To interested people, we will be glad to show the plants themselves and have them hear what is said by the owners of them.

Further particulars can be obtained from our literature, which we will be glad to supply upon request.

At Atlantic City, sealed proposals for the construction of a part of the storm-water drainage system for the city of Atlantic City, New Jersey, will be received by the City Council, when called for by the President at Council Chambers, in the City Hall, during a meeting to be held by that body on August 9, A. D., 1909, at which time and place, during a session of City Council, the proposal will be publicly opened and read. The work to be done consists of approximately 76,614 lineal feet of brick, brick and reinforced concrete and terra cotta drains, from 10 in. in diameter to 8 feet wide, with manholes catch basins and inlets. Each proposal must be accompanied by a certified check drawn upon a national or State bank or trust company, and to the order of Albert Beyer, City Treasurer, for the sum of five thousand dollars (\$5,000). Specifications and blank forms of proposals can be obtained of the City Engineer, and a full set of plans can be obtained from him for the sum of ten dollars (\$10.00), such sum to accompany the order. Specifications and plans can also be seen at the office of the Consulting Engineer, Wilmington, Delaware. The City Council reserves the right to reject any or all bids and it shall deem it for the public interest so to do.

ARCHITECTS' NOTES

Oliver Randolph Parry, architect, 1723 Chestnut street, has awarded the contract for the large reinforced concrete dairy barn to be erected at Primros, Pa., to C. R. Knapp & Co., Builders' Exchange, at a figure not mentioned. It will be unique in character for a building of this description and following closely the recommendations of the Government in relation to general arrangement. It will contain sixteen cow stalls, calf bin, bull bin, cooling room, feed mixing room, and three box stalls on the ground floor and feed room, hay lofts, etc., in attic. The particular features are thorough ventilation through exterior walls, fire proof loft floor, insuring safety to the stock if fire occurs in the loft, semi-fire proof roof completing protection from fire from the exterior, and simple lines of exterior design. The barn is to be located on the grounds of the Burn Brae Hospital at Primros, Pa.

George T. Pearson, architect, 427 Walnut street, has invited estimates on alterations and additions to the residence of Dr. Dickson, in Wallingford, Pa.

Charles L. Brown & Co., 217 S. Broad street, have sold the property at 1328 Walnut street to J. Warner Hutchins for J. L. Borsch. At the expiration of the present lease the purchaser will make extensive improvements and occupy the same.

Kurt W. Peuckert, architect, 310 Chestnut street, has completed plans for a three-story brick saloon and dwelling, to be built at Cost and Fleming streets, Manayunk, to cost \$15,000, for Anthony S. Johnson. Estimates are invited from local builders.

Robert M. Cunliffe, who owns and occupies the property at the northwest corner of Eleventh street and Washington avenue, measuring 181 x 185½ feet, has sold the same to Maurice B. Saul, who it is stated will erect a large factory building on the site.

Thomas, Churchman & Molitor, architects, 1309 Walnut street, have invited estimates on the stable and garage, to be built in Merion Pa., for William H. Wanamaker, Jr. F. L. Hoover & Sons, Appleton & Burrell and Jacob Myers & Sons, builders, are estimating.

Charles W. Miller, Room 401 Commonwealth Building, 1201 Chestnut street, has sold a tract of land on the west side of Twenty-third, between Cambria street and Indiana avenue, to a purchaser who will build about 100 two-story modern dwellings on the site.

The Board of Church Extension of the United Presbyterian Church has purchased a lot, measuring 144 x 75 feet, at the northwest corner of Sixty-seventh street and Paschall avenue, for \$6,000. The purchase was made as

a site for a chapel to be erected in the future.

Savery, Scheetz & Savery, architects, Stephen Girard Building, have invited estimates on the new residence to be built in Cynwyd, Pa., for G. W. Lincoln. Wm. R. Dougherty, E. J. Hedden, A. L. Fretz & Son, Ferguson & McDowell and A. Whitehead, builders, are estimating.

CHANGE OF FIRM.

Messrs. Shellenberger & Smith, Room 303 Master Builders' Exchange, have taken over the business of R. T. Cropper, who formerly occupied the same suite of offices. The new firm is composed of a couple of bright young gentlemen who possess considerable business experience in the building material lines in which Mr. Cropper was engaged for many years; these lines embrace practically all qualities as well as shades and novelties in the brick business with one important feature included in the display of their different varieties of sample brick, they having different kinds of brick displayed set in sections with pointing between the bricks in order that the customers may fully comprehend just how the front of the structure will look when erected. While brick is a large factor in this firm's business, it is probably no greater than that of the roofing material they handle, which includes a variety of roofing slates as well as Akron roofing tile. We predict successful results for the new firm, as they possess the necessary qualifications in every direction for a prosperous business career.

PHILADELPHIA, WEDNESDAY, AUGUST 18, 1909

Less than One Year
15 Cents per Copy**ARCHITECTS' NOTES**

Oliver Randolph Farry, architect, 1733 Chestnut street, has been retained by the Farm Products Manufacturing Company, Muzzey & Gumbes, Real Estate Trust Company Building, fiscal agents, to superintend the erection of a large denatured alcohol distillery building, boiler house, etc., for the company, at Quakertown, Bucks county, Pa. The main building will be four stories with attic, of brick, 100 x 45 feet, slow burning mill construction. This is the first of a number of buildings to be erected on a large site recently purchased by the company in the above town. The cost of the present work when completed will be in the neighborhood of \$40,000.

John G. Klemm, who owns the stable property at 115 North Broad street, is having plans prepared for a four-story fireproof garage, to be built on the site, to cost about \$60,000.

Clyde S. Adams, architect, 1233 Arch street, has plans in the course of preparation for a new front and interior alterations to the store building, at 1231 Arch street, for Elliott & Conway.

Wilson, Harris & Richards, architects, Drexel Building, have plans on boards for a two-and-one-half-story stone and rough cast residence, to be built in Rosemont, Pa., for John H. Converse.

Ballinger & Perrot, architects, 1211 Arch street, have invited bids on the three-story brick and concrete building, 102 x 300 feet, to be built at Wheat Sheaf lane and Gaul street, for F. W. Tunnell & Co.

Sauer & Hahn, architects, 1112 Chestnut street, have completed plans for a one-story brick and concrete garage, 37 x 100 feet, to be built at the southwest corner of Broad and Callowhill streets, for Samuel Sternberger.
